

# 2013 Projects

# US-40 Roadway Widening

## US-40 at Pleasant Valley Intersection near Myton

Project Number: F-0040(107)103

PIN: 10240

### Project Timeline:

Construction begins:  
Spring 2013

### Commission-Approved Funding Amount:

\$ 1,639,000

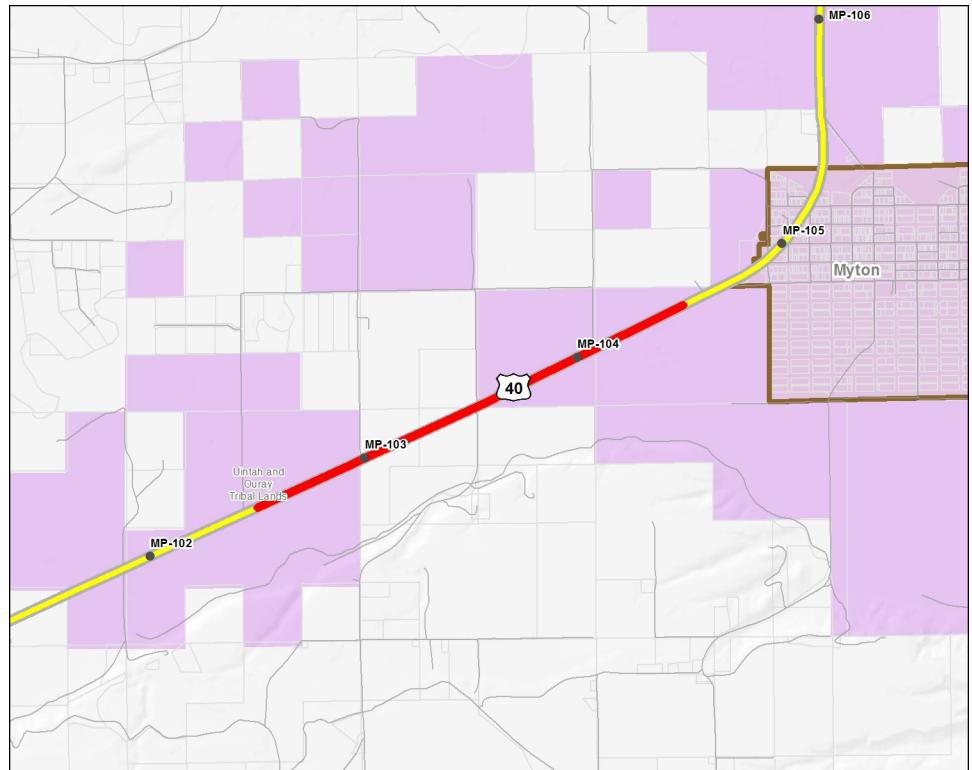

### Project Contacts:

Brian Phillips  
Project Manager  
801-227-8055  
brianphillips@utah.gov

murielx@utah.gov

Shane Marshall  
UDOT Region 3 Director  
801-227-8001  
smarshall@utah.gov

This project will widen US-40 to add left and right turn lanes to the heavily used Pleasant Valley intersection. These improvement will optimize mobility and improve the flow of traffic in the area.

Construction will start by May 2013, and will last for approximately 60 days. Crews will maintain one lane in each direction. Drivers may experience intermittent flagging operations.

# New Traffic Signal

## US-40 at 2500 South in Naples

Project Number: S-0040(112)149

PIN: 10778

### Project Timeline:

Construction begins:  
Spring 2013

### Commission-Approved Funding Amount:

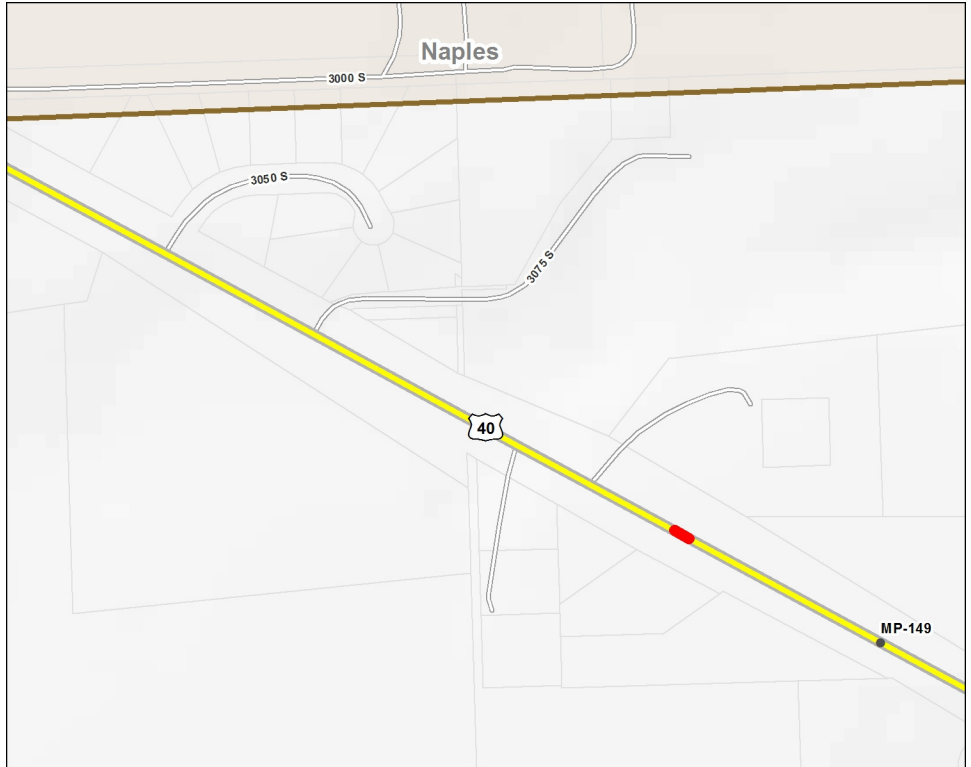

\$ 250,000

### Project Contacts:

Brian Phillips  
Project Manager  
801-227-8055  
brianphillips@utah.gov

murielx@utah.gov

Shane Marshall  
UDOT Region 3 Director  
801-227-8001  
smarshall@utah.gov

Next spring, a new traffic signal will be constructed at the intersection of US-40 and 2500 South in Naples to improve safety in the area.

Work will take place for approximately 30 days, during which time motorists can expect lane and shoulder closures in the area.

# US-40 Roadway Widening in Ballard

## US-40, from 2500 East to 4000 East

Project Number: F-0040(109)116

PIN: 10239

### Project Timeline:

Advertisement:  
Spring 2013

Construction begins:  
Summer 2013

### Commission- Approved Funding Amount:

\$4,500,000

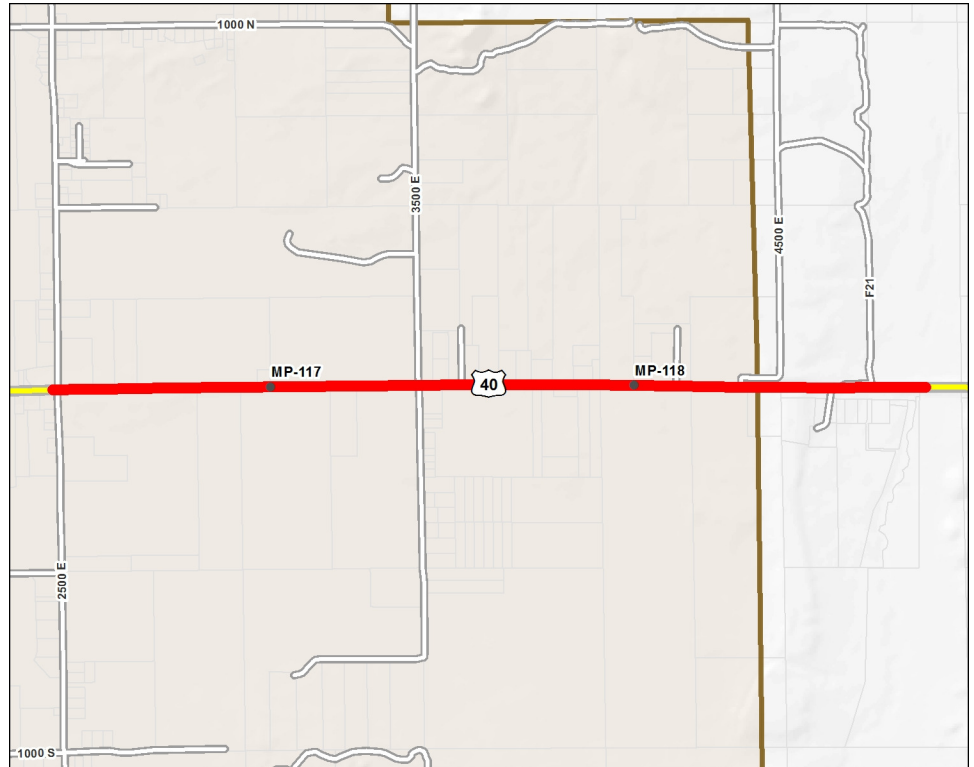

### Project Contacts:

Brian Phillips  
Project Manager  
801-227-8055  
brianphillips@utah.gov

Jack Lyman  
Resident Engineer  
801-222-3470

murielx@utah.gov

Shane Marshall  
UDOT Region 3 Director  
801-227-8001  
smarshall@utah.gov

Next construction season, crews will begin widening US-40 between 2500 East and 4500 East in Ballard in order to construct a shared, left-turn median, and roadway shoulders. These improvements will increase safety for left-turning vehicles in the area.

During construction, motorists can expect one lane of traffic in each direction to be maintained for the majority of the project's duration. Narrowed lanes and intermittent flagging operations can be expected as well.

# SR-87 Safety Improvements

## SR-87, North of Duchesne at MP 15

Project Number: F-0087(4)0

PIN: 7109

### Project Timeline:

Advertisement:  
Spring 2013

Construction begins:  
Summer 2013

### Commission-Approved Funding Amount:

\$ 2,145,232

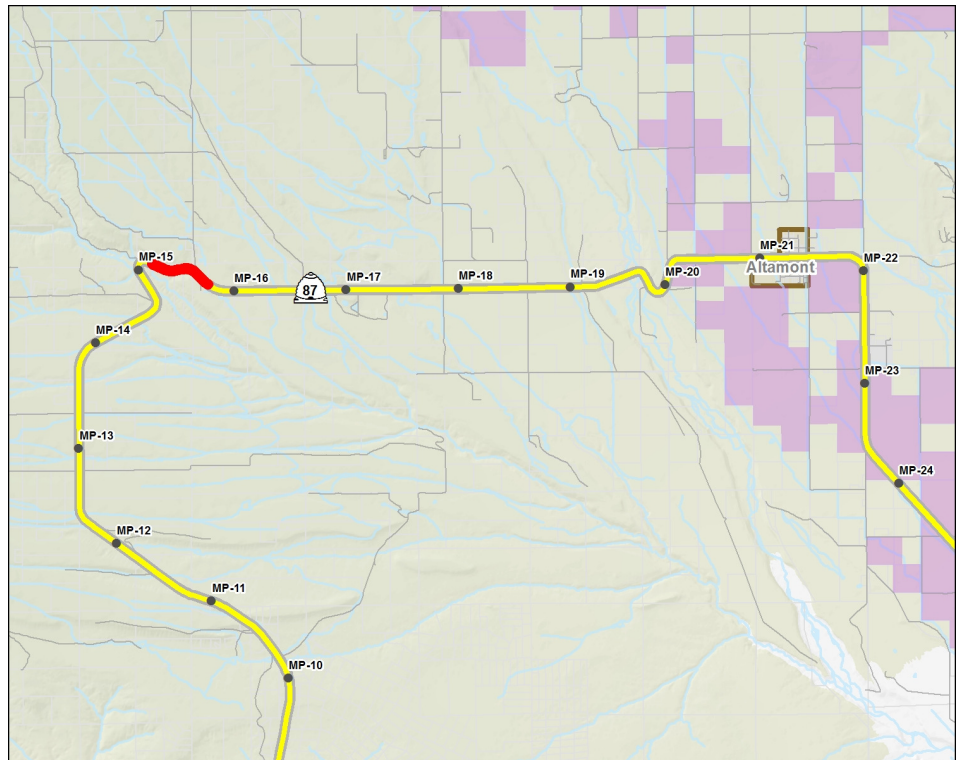

### Project Contacts:

murielx@utah.gov

Shane Marshall  
UDOT Region 3 Director  
801-227-8001  
smarshall@utah.gov

This safety improvement project will widen the roadway shoulders and replace guardrail along SR-87 between mileposts 14 and 15, and at the intersections of 21000 North and Falcons Ledge. This project will also add turn lanes at the 21000 North intersection.

Construction is expected to take place next summer for approximately three months. Motorists and local residents can expect one-way flagging operations with short delays during daytime hours.

# US-40 Pavement Rehabilitation in Roosevelt

## US-40, from Pole Line Road to State Street

Project Number: F-0040(111)111

PIN: 10000

### Project Timeline:

Advertisement:  
Early 2013

Construction begins:  
Summer 2013

### Commission-Approved Funding Amount:

\$ 5,760,000

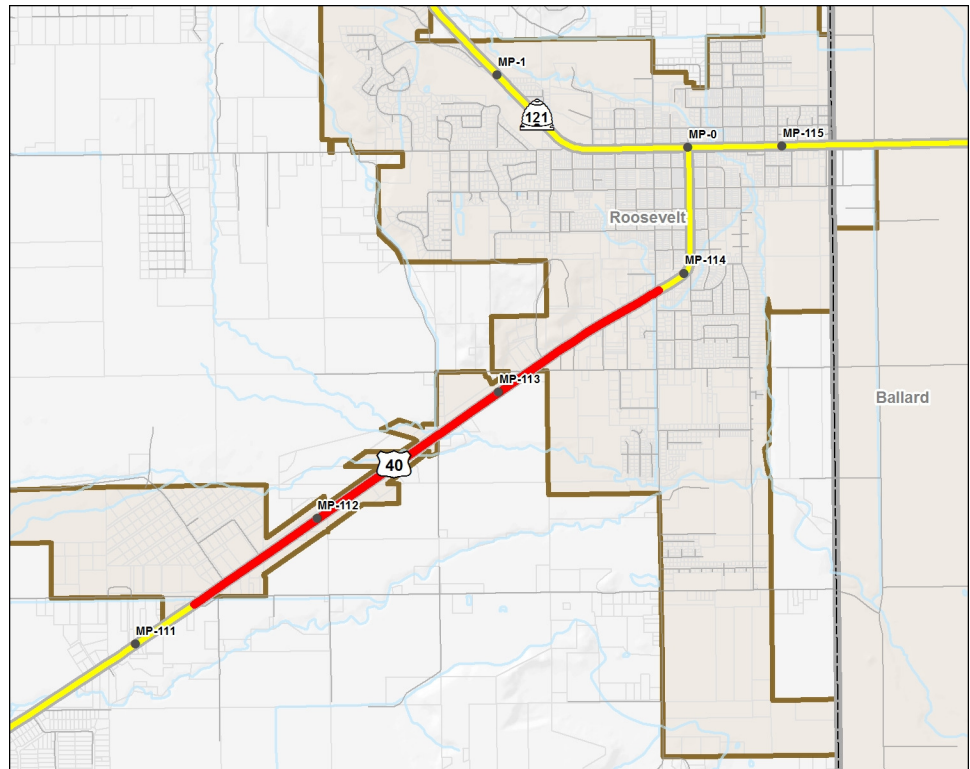

### Project Contacts:

Brian Phillips  
Project Manager  
801-227-8055

murielx@utah.gov

Shane Marshall  
UDOT Region 3 Director  
801-227-8001  
smarshall@utah.gov

To prolong the life of the roadway, this orange book project will place a microsurface treatment on SR-121, between milepost 34 to milepost 40.

Construction will begin next summer and work will take place during the day. Motorists and local residents can expect flagging and one-traffic operations.

# Structure Rehabilitation

## US-40 bridge over the Green River Jensen, Utah

Project Number: F-0040(100)158

PIN: 10370

### Project Timeline:

Construction begins:  
Late Fall 2012

### Commission-Approved Funding Amount:

\$ 400,000

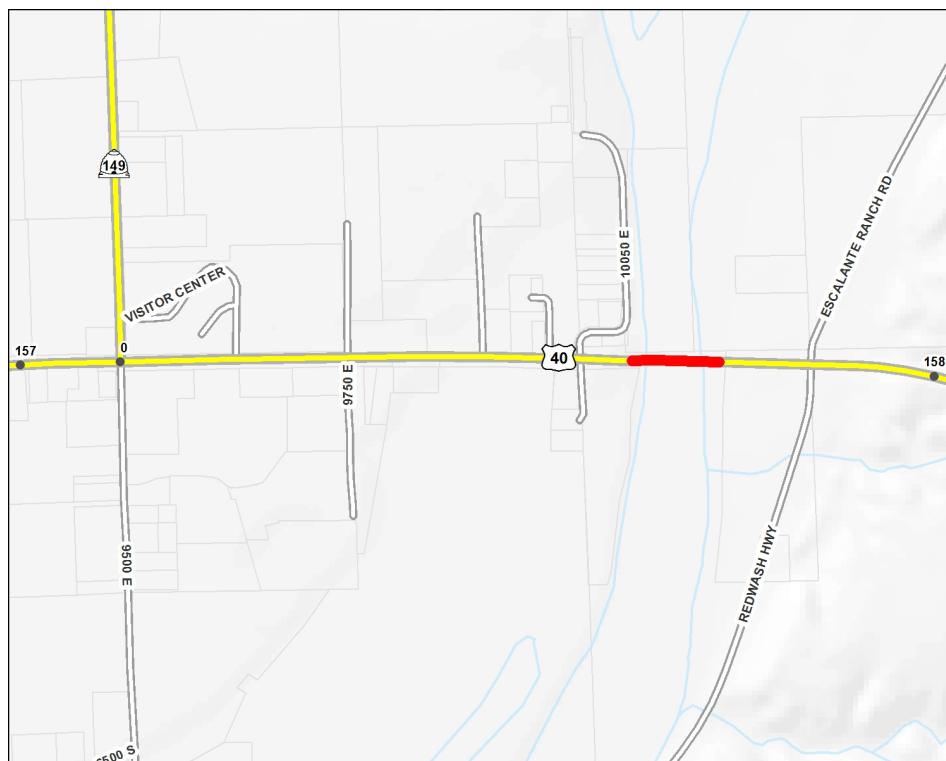

### Project Contacts:

Jim Golden  
Project Manager  
801-360-0052  
jimgolden@utah.gov

Jack Lyman  
Resident Engineer

murielx@utah.gov

Shane Marshall  
UDOT Region 3 Director  
801-227-8001  
smarshall@utah.gov

This bridge rehabilitation project will have little impact to traffic. Crews will install liners around the structure foundations and river bank to prevent deterioration and protect the slope from erosion during periods of high water.

Construction will take place this fall, for approximately one month. Most of the work will take place underneath the bridge, but trucks will occasionally access the roadway for material transportation. Short, intermittent flagging operations may be necessary.

# Structure Preservation

## SR-35 over Duchesne River, Structure F-209

Project Number: S-0035(6)49

PIN: 10634

### Project Timeline:

Advertisement:  
Spring 2013

Construction begins:  
Mid-Summer 2013

### Commission-Approved Funding Amount:

\$ 375,000

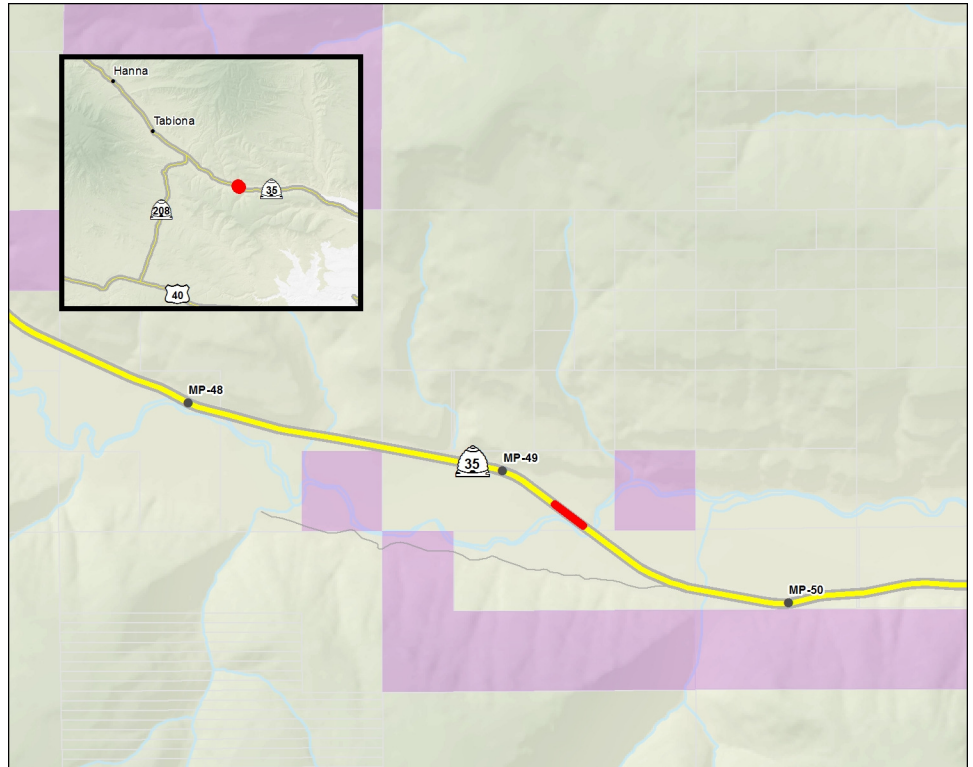

### Project Contacts:

Shane Marshall  
UDOT Region 3 Director  
801-227-8001  
[smarshall@utah.gov](mailto:smarshall@utah.gov)

Next summer, crews will make repairs to rehabilitate the SR-35 bridge over the Duchesne River.

This work will result in an approximate two-day total closure of the roadway, during which time, a detour will be in place.

# Erosion Control in Duchesne County

## SR-35 at Duchesne River and SR-87 at Lake Fork River

Project Number: ER-R399(136)

PIN: 10715

### Project Timeline:

Advertisement:  
Summer 2013

Construction begins:  
Fall 2013

### Commission-Approved Funding Amount:

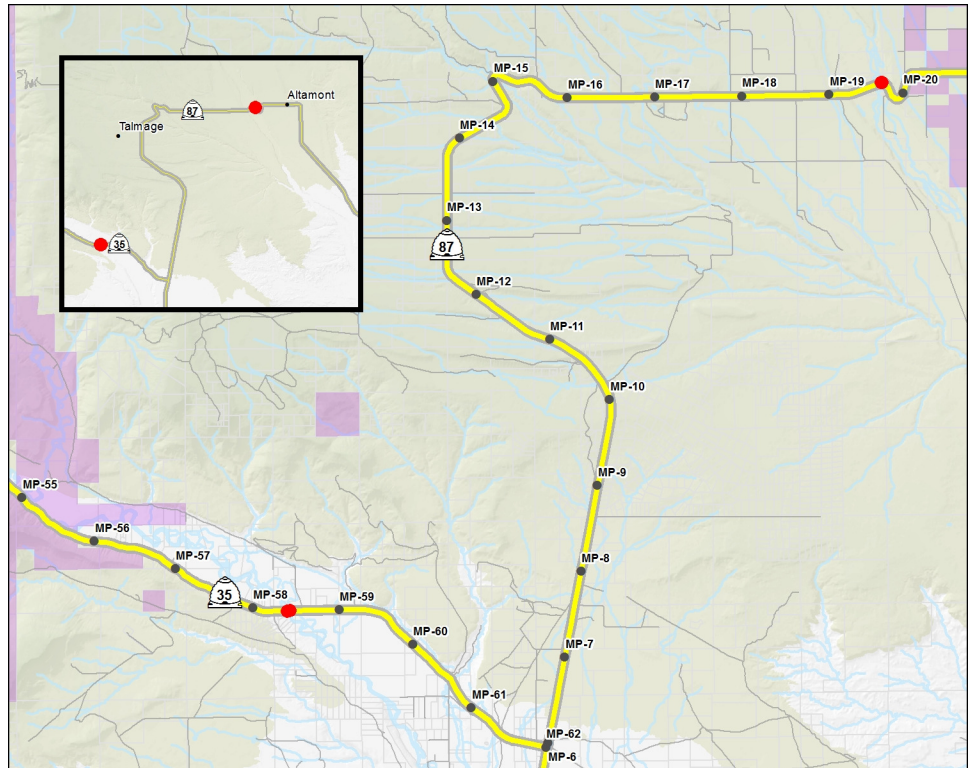

\$ 835,000

### Project Contacts:

Brian Phillips  
Project Manager  
801-227-8055  
brianphillips@utah.gov

murielx@utah.gov

Shane Marshall  
UDOT Region 3 Director  
801-227-8001  
smarshall@utah.gov

In order to protect structures and reestablish river banks, crews need to do some repair work at two locations in Duchesne County: SR-35 at the Duchesne River, and SR-87 at the Lake Fork River.

Work will take place next fall. Roadway impacts are not anticipated.

# 2014 Projects

# US-40 Passing Lane in Uintah County

## US.40, between SR-88 and MP 135

**Project Number: S-0040(103)131**

**PIN: 10692**

### Project Timeline:

Advertisement:  
Spring 2014

Construction begins:  
Summer 2014

### Commission-Approved Funding Amount:

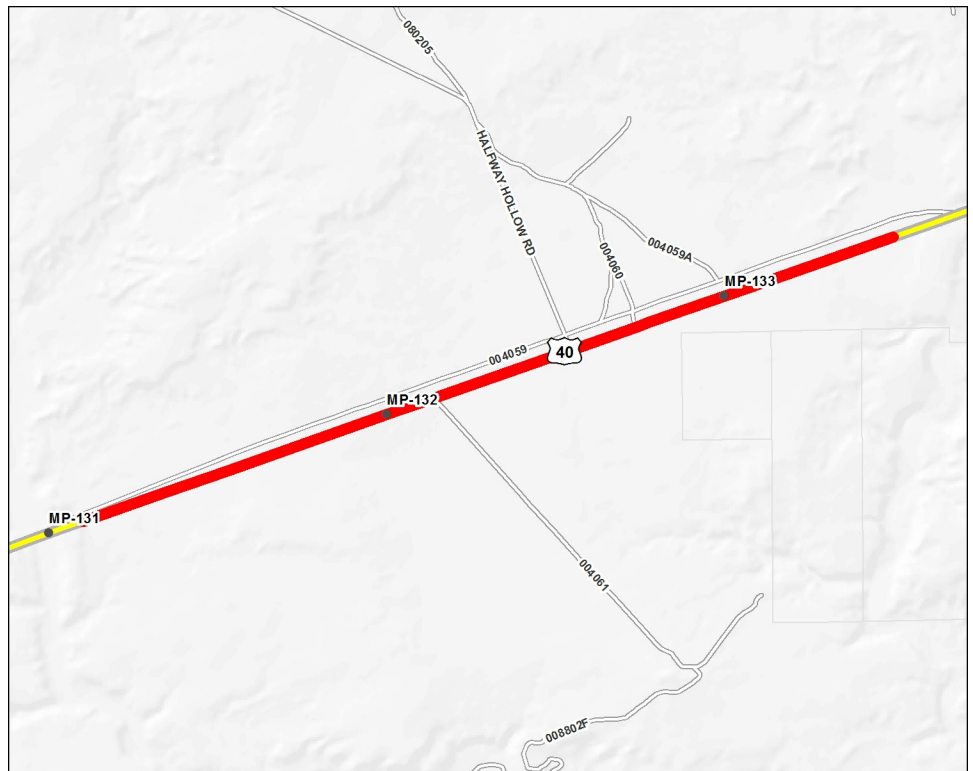

\$ 11,000,000

### Project Contacts:

Brian Phillips  
Project Manager  
801-227-8055  
[brianphillips@utah.gov](mailto:brianphillips@utah.gov)

murielx@utah.gov

The Utah Transportation Special Service District and Vernal City are coordinating to resurface and repair the pavement on 500 South, from Vernal Avenue to 2500 West.

The improvements will prolong the life of the roadway and provide a smoother ride for drivers.

Construction will take place for approximately three months., during which time drivers can expect flagging operations and possible detours.
